INTERIM PRESIDENT’S REPORT

Interim President, C. Peter Magrath, reported on the following issues:

There will be an organizational change in our research operations at West Virginia University in that the Vice President for Research, Curt Peterson, will now report directly to the President (instead of the Provost) as we strive to advance West Virginia University’s total research enterprise.

We are excited about our efforts to stabilize and strengthen collaborative endeavors at West Virginia University Institute of Technology, as evidenced by two items on today’s meeting agenda, namely, the salary increase plan for West Virginia University Institute of Technology, and the appointment of Scott M. Hurst as Campus Provost.

Another agenda item under consideration, the Memorandum of Understanding between West Virginia University and the Blanchette Rockefeller Neurosciences Institute, which evidences the continuing relationship and commitment between the parties, constitutes a momentous, beneficial alliance between these entities, and should be approved.

In the aftermath of the Virginia Tech situation, and as an update on the issue of campus safety at West Virginia University, in addition to the many new policies and procedures being implemented, we recently hired Alfred Kasprowicz as Clinical Director of the WVU Carruth Center, who will work in coordination with multiple departments throughout campus (including Student Health, Campus Police, etc.) in managing cases where mental health concerns exist.

As an engaged university, WVU pledges to move forward in our progress to build political support and attract the financial resources we need to do our vital work in serving the people of our region and state.
